

Nanotechnology simulation and more.
Always on, around the globe.

Issue 13

nanoHUB Pro membership is here!

For just \$75/year, you can upgrade to nanoHUB Pro Membership and receive the features that our serious users demand.

Pro Membership Benefits:

- Get 100 GB of storage space.
- Run more simultaneous simulation sessions (10 vs 3).
- Receive 500 nano points and get the gear that shows that you're a Pro!
- Attend the yearly nanoHUB User Conference and receive a 20% discount on your registration.

nanoHUB User Conference 2015

Attend nanoHUB's second [user conference](#) and hear from experienced users how they integrate nanoHUB into their research/classrooms, discuss topics of interest in a variety of panel sessions, see how nanoHUB is being used in projects at the poster session, and learn how to apply what you hear through a series of "how to" talks.

When: August 31 - September 1, 2015

Where: Purdue University, West Lafayette, IN

Want to share how your team uses nanoHUB in research, education, or other applications?

Submit a short abstract detailing your poster topic along with the title and author names to contact@nanohub.org

This year the nanoHUB user conference is held in conjunction with the [International Workshop on Computational Electronics \(IWCE\)](#). Special rates are provided for parties interested in attending both conferences.

Upcoming Events

NanoDays 2015

The biggest event for the smallest science.

When: April 15-17, 2015

[More Info](#)

[More events](#)

Featured Tools

[Quantum Point Contact](#)

Simulate the conductance and associated wavefunctions of Quantum Point Contacts

[Molecular Foundry Photonics Toolkit](#)

Simulate realistic 1, 2, or 3-dimension nano-optical systems using the FDTD method
