

HUBbub Edition

Conference to explore HUBzero, ready-made cyberinfrastructure for research and education

HUBbub 2013 is the annual conference for researchers, educators, and IT professionals engaged in building and using cyberinfrastructure. Learn about the latest features in the HUBzero tool box and how they can be used to address the unique challenges of scientific pursuits.

Originally developed by Purdue to power nanoHUB.org, HUBzero is a Web-based platform for building scientific and other kinds of research, as well as educational collaborations. More than 40 hubs now support a wide variety of fields.

September 5-6, 2013

Sheraton Indianapolis City Centre Hotel
